Resolution: SR_S18
Title: An Act to Correct the Club Sports Bill
Sponsor: John Gosselin Atwater Senator
Date: February 25, 2018

Whereas, there were two unworkable clauses in the original Club Sports Bill,

Whereas, the chair of the Finance Committee requested these changes for the following reasons:

1. The most recent club sports bill was passed with errors;
2. Club snacks are often vital to student organization operations for comfort, promoting healthy relationships with food, demonstrative food education, sustaining long working sessions, etc;
3. Organizations are all unique and require different funding to operate safely and effectively;
4. The least expensive club sport costs more that $1000;

Therefore, be it resolved,

That, the SGA repeal section 1 clause 7: “That given full approval and after a year of operations, club sports may apply for funding exceeding $1000 and the Finance Committee may approve funding based on merit, policy, and discretion”

That, the SGA repeal section 3 clause 1: “Change “While the Finance Committee allocates money to student organizations for food, we do not allow purchasing of ‘handouts’ for most reasons.” To “The SGA Finance Committee does not allocate money for ‘handouts’, including snacks. Food expenditures besides snacks will be funded at the discretion of the committee.”” from the SGA FC Policies.

Respectfully submitted,

John Gosselin, Atwater Senator
Peter Dykeman-Birmingham, SGA Treasurer
